A Report on

Classified Employee Turnover for Fiscal Year 2006

December 2006

Report No. 07-706

A Report on
Classified Employee Turnover for Fiscal Year 2006

SAO Report No. 07-706
 December 2006

Overall Conclusion

The statewide turnover rate for full- and part-time, classified employees in fiscal year 2006 was 15.8 percent, based on a total of 22,905 voluntary and involuntary separations. This is a 6.2 percent decrease in separations when compared to the previous fiscal year. However, excluding involuntary separations and retirements decreases the state turnover rate to 10.6 percent. This rate is often considered a "true" turnover rate because it reflects "preventable" turnover.

Almost one-fourth of the State's turnover in fiscal year 2006 was involuntary. The State experienced a 0.8 percent decrease in the number of voluntary separations from fiscal year 2005 (15,439) to fiscal year 2006 (15,315).

Employee Types

Classified regular - An employee who is subject to the State's Position Classification Plan.

- Classified regular full-time - A classified employee who works at least 40 hours per week.
- Classified regular part-time - A classified employee who works less than 40 hours per week.

Temporary - An employee whose employment is limited in duration and established for a specific period of time.

Exempt - An employee who is exempt from the State's Position Classification Plan and is listed in the General Appropriations Act.

Unclassified - An employee who is not subject to the State's Position Classification Plan.

Source: *Payroll Policies and Procedures Guide*, August 2000, Comptroller of Public Accounts.

Key Points

Voluntary turnover accounted for more than three-quarters (76 percent) of the overall turnover for the State's classified regular full- and part-time employees. The remaining 24 percent were involuntary separations (such as death, dismissal for cause, reduction in force, resignation in lieu of involuntary separation, and termination at will).

Turnover during Fiscal Year 2006 ^a		
Separation Type	Number of Separations	Percentage of Separations
Retirements	2,135	9.3%
Voluntary Separations from Agency	15,315	66.9%
Total Voluntary Separations	17,450	76.2%
Death	245	1.1%
Dismissal for Cause	2,786	12.2%
Reduction in Force	239	1.0%

This report was completed in accordance with Texas Government Code, Section 651.007.

For more information regarding this report, please contact Susan Riley, Assistant State Auditor, or John Keel, State Auditor, at (512) 936-9500.

Turnover during Fiscal Year 2006 ^a		
Separation Type	Number of Separations	Percentage of Separations
Resignation in Lieu of Involuntary Separation	1,995	8.7%
Termination at Will	183	0.8%
Total Involuntary Separations	5,455	23.8%
Total Separations	22,905	100.0%

^aThe voluntary separations and total separations for fiscal year 2006 exclude interagency transfers because these are not viewed as losses to the State.

Sources: Uniform Statewide Payroll System, Human Resources Information System, and Statewide Payroll/Personnel Reporting System.

The Criminal Justice (36 percent) and Social Services (25 percent) occupational categories accounted for 61 percent of the State’s turnover for full- and part-time classified employees.

These two occupational categories each had turnover rates greater than 20 percent. The majority of employees in these occupational categories are employed by the Department of Criminal Justice and the following health and human services agencies:

- The Health and Human Services Commission.
- The Department of Family and Protective Services.
- The Department of State Health Services.
- The Department of Assistive and Rehabilitative Services.
- The Department of Aging and Disability Services.

In the health and human services agencies, the MHMR Services Aides/Assistants/Supervisors job classification series experienced turnover at the rate of 31.6 percent.

The Youth Commission experienced the highest turnover (35.6 percent) within large state agencies.

The Juvenile Correctional Officer job classification series experienced a turnover rate of 47 percent. The majority of the employees in this job classification series are employed by the Youth Commission, and this job classification series comprises 61.1 percent of the Youth Commission’s workforce.

The state's largest agency, the Department of Criminal Justice (41,396 employees), had a turnover rate of 19.7 percent.

This agency also experienced the highest number of employee separations (8,172) during fiscal year 2006. The majority of this agency workforce is comprised of Correctional Officers – a job classifications series that experienced a turnover rate of 24 percent.

Exit survey participation by state agencies has declined by 20.6 percent since it began in fiscal year 2002.

In fiscal year 2002, 94.5 percent of eligible employees received a unique identification code from their agencies to enable them to take the exit survey. In fiscal year 2006, overall the state agency participation rate was 75.0 percent.

More than 3,500 employees completed the exit survey during fiscal year 2006. In these surveys, the following reasons were most frequently cited for leaving state employment:

- Better pay/better benefits.
- Poor working conditions/environment (for example, safety, work-related stress, and/or workload issues).
- Retirement.

Summary of Objective, Scope, and Methodology

The objective of this report is to provide information about employee turnover, to evaluate and analyze trends in state employment, and to address the causes of the turnover.

The scope of this report includes full- and part-time classified employees in Texas state agencies during fiscal year 2006. This report does not include data from institutions of higher education. The On-Line Exit Survey is offered to all state agency employees who voluntarily separate from state employment. Information pertaining to that tool may include employees outside the scope of this report (that is, temporary employees, exempt employees, and unclassified employees).

The State turnover rate is the percentage of full- and part-time classified state employees, excluding employees at institutions of higher education, who voluntarily and involuntarily separate from state employment. Interagency transfers are excluded from the calculation of the State's overall turnover rate because employees who transfer to other state agencies and institutions of higher education are not considered a loss to the State as a whole.

This analysis was prepared from quarterly and year-end summary information received from the Comptroller of Public Accounts' Human Resource Information

System (HRIS), the Uniform Statewide Payroll/Personnel System (USPS), and the Standardized Payroll/Personnel Reporting System (SPRS).

The following formula was used to determine the State's turnover rate:

$$\left(\frac{\text{Number of separations during the fiscal year}}{\text{Average number of classified employees during the fiscal year}^1} \right) \times 100$$

This project was a review; therefore, the information in this report was not subjected to all the test and confirmations that would be performed in an audit. However, the information in this report was subject to certain quality control procedures to ensure accuracy and compliance with generally accepted compensation practices.

¹ The "average number of employees" was calculated by totaling the number of classified employees for each quarter of fiscal year 2006 and then dividing this total by the number of quarters.

Detailed Results

Chapter 1

Overall Turnover Rate

During fiscal year 2006, the State experienced 22,905 separations (excluding interagency transfers), which resulted in a statewide overall turnover rate of 15.8 percent (see Figure 1 on the next page). This is a 6.2 percent decrease in separations from fiscal year 2005.

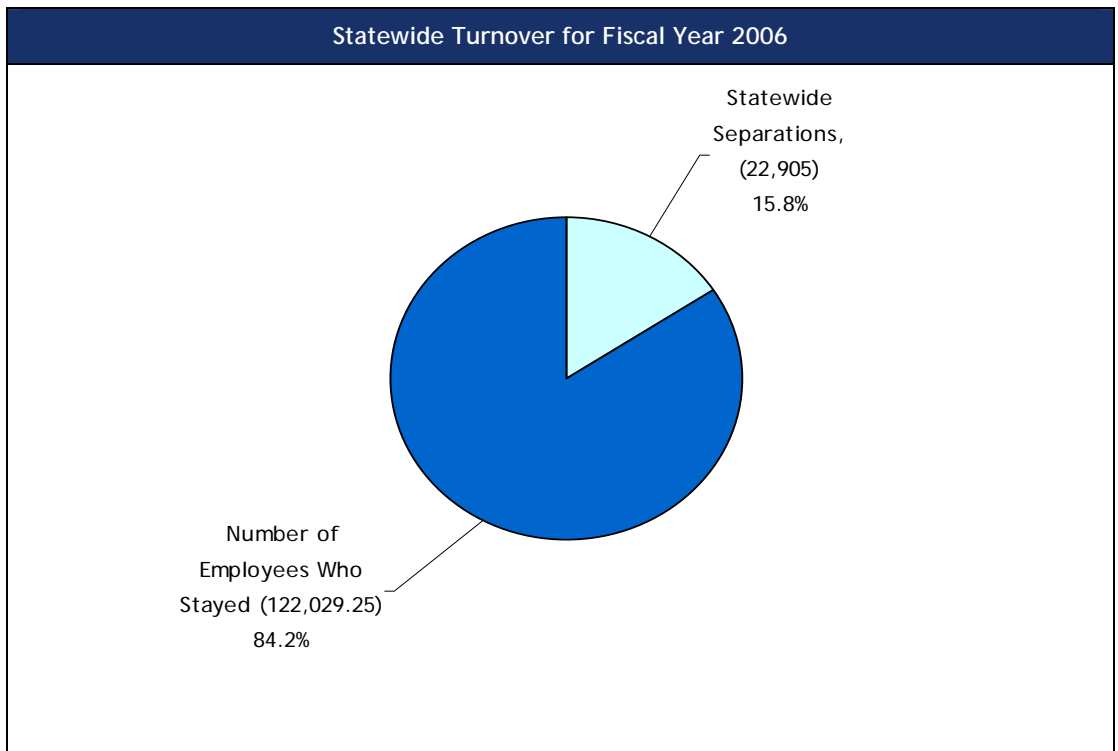

Excluding involuntary separations and retirements, the state turnover rate during fiscal year 2006 was 10.6 percent. (This rate was 10.7 percent during fiscal year 2005.) This calculation is often considered more of a "true" turnover rate because it reflects "preventable" turnover. From fiscal year 2005 to fiscal year 2006, the State experienced a 0.8 percent decrease (percent change) in the number of voluntary separations from state employment. Table 1 provides information on the type of separations for fiscal years 2005 and 2006.

Table 1

Separations for Fiscal Years 2005 and 2006 ^a			
Separation Type	Fiscal Year 2005	Fiscal Year 2006	Percent Change
Average Headcount	144,772.50	144,934.25	0.11%
Voluntary Separations			
Retirements	3,953	2,135	-46.0%
Voluntary Separation from Agency	15,439	15,315	-0.8%
Total Voluntary	19,392	17,450	-10.0%
Involuntary Separations			
Death	225	245	8.9%
Dismissal for Cause	2,758	2,794	1.3%
Reduction in Force	98	239	143.9%
Resignation in Lieu of Involuntary Separation	1,728	1,995	15.5%
Termination at Will	215	182	-15.3%
Total Involuntary	5,024	5,455	8.6%
Total All Separations	24,416	22,905	-6.2%
^a The voluntary separations and total separations for fiscal year 2005 and 2006 exclude interagency transfers because these are not viewed as a loss to the State.

The State experienced a slight decrease in turnover for full- and part-time classified employees between fiscal years 2005 and 2006, while at the same time the unemployment rate in Texas continued to decline. Figure 4 on the next page shows the rates for unemployment in Texas and the State's voluntary turnover. In fiscal year 2006, the voluntary turnover rate was 10.6 percent. For four of the five years shown in Figure 4, there appears to be an inverse relationship between the statewide unemployment rate and the state government turnover rate—as the unemployment rate goes down, the turnover rate goes up, and vice versa. The exception, albeit a small one, is fiscal year 2006, when both the unemployment and turnover rates decreased. The slight decrease in the State's unemployment rate for this year may be influenced by the increase in wages provided to state employees during the 2006-2007 biennium.

The Comptroller of Public Account's 2006-2007 revenue estimate for the 79th Legislature (3rd Called Session) predicted that a relatively strong job market would cause the statewide unemployment rate to fall below 5 percent in the second half of fiscal year 2006. As economic conditions improve, it is likely the turnover rate for state agencies will begin trending up again.

In the near future, it is expected that the Texas economy will continue to grow, expand, and improve. The Perryman Group's *Perryman Report* issued in for June/July 2006² stated that:

Once hiring began to expand in mid-2003, employment in Texas experienced a consistent pattern of broad-based progress and has maintained a higher growth rate than that of the nation. Part of the reason for this achievement is attributed to the fact that Texas has numerous fast-growing industries and many of them also have been expanding more rapidly than their counterparts across the US.

The Perryman Group's *Perryman Report* provides short-term and long-term economic forecasts on a periodic basis. As this growth continues, it is probable that state agencies will experience more competition for employees.

² "The long-tem outlook for the United States, Texas, and the State's Metro Areas," The Perryman Report, June/July 2006, The Perryman Group.

Figure 4

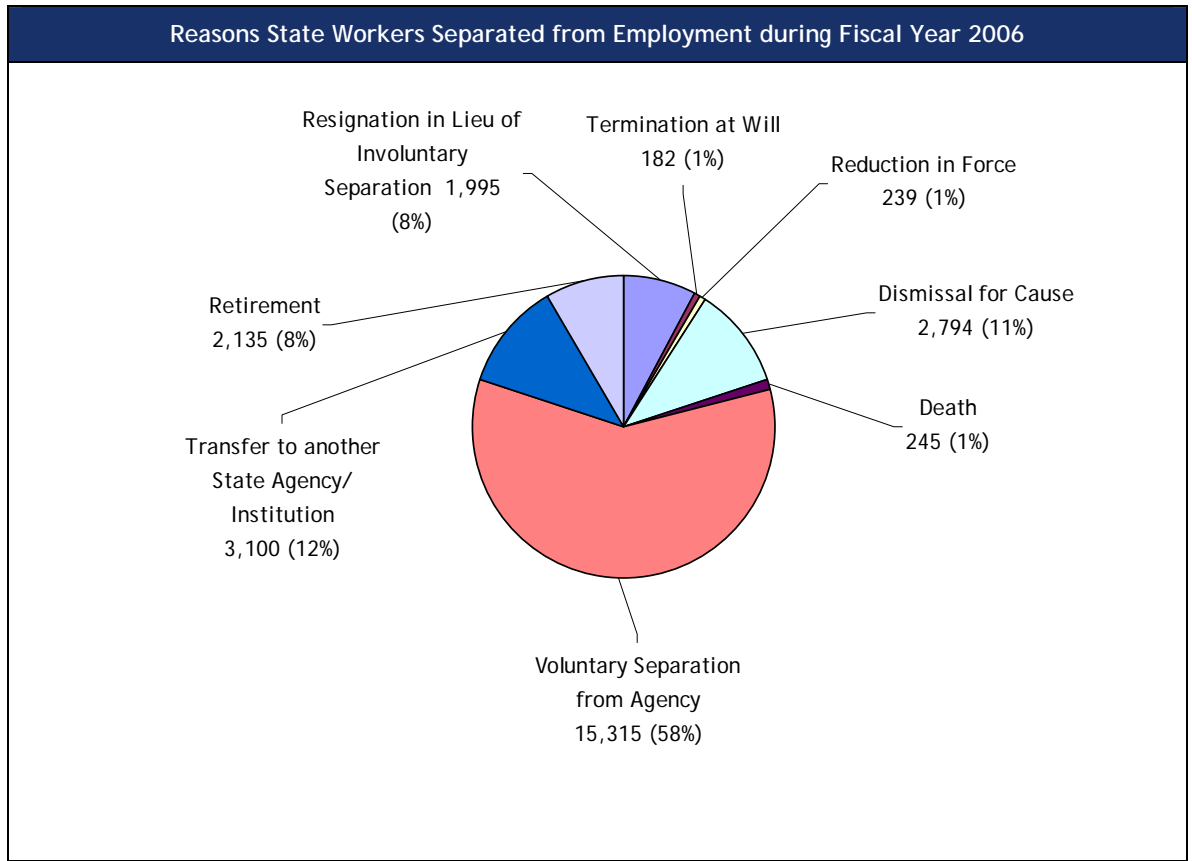

Sources: Uniform Statewide Payroll System, Human Resources Information System, and Statewide Payroll/Personnel Reporting System (Voluntary Turnover Rate) and Bureau of Labor Statistics (Unemployment Rate).

Voluntary vs. Involuntary Turnover

The majority of the State's full- and part-time classified separations were voluntary separations by the employee (76 percent). Involuntary separations accounted for the remaining classified separations (24 percent).

Voluntary separation types include: voluntary separations from the agency, and retirement. Involuntary separation types include: dismissal for cause, death, reduction in force, resignation in lieu of separation, and termination at will. Figure 5 on the next page provides information on the reasons state workers separated from employment in fiscal year 2006. Appendix 2 provides additional details on the reasons state employees separated from employment in fiscal years 2002 to 2006.

Figure 5

Sources: Uniform Statewide Payroll System, Human Resources Information System, and Statewide Payroll/Personnel Reporting System.

Turnover Demographics

The State's turnover data can be divided into several categories: males and females, over age 30 and under age 30, and certain ethnic groups. This data can provide insight into the reasons employees leave state employment and ways to retain them. Separation and headcount data can be used for determining the statistical significance of turnover rates, especially for demographic categories with low headcounts. For example, a turnover rate of 33 percent is generally considered high. But if this rate is based on one employee's separation in a demographic category with three employees, the "high" turnover rate's significance is lessened.

It should be noted that the information provided in this chapter reflects turnover that is considered a loss to the State; thus, separations attributable to a transfer to another state agency/institutions are excluded.

Chapter 2-A

Turnover by Gender

Turnover by gender is generally proportional to gender representation within the state workforce (see Table 3). Exit survey results for fiscal year 2006 indicate that the number one reason cited by both females and males for leaving their state agencies was for better pay/benefits. For females, however, the second most frequently cited reason for leaving their agencies was working conditions/environment, whereas the second most frequently cited reason for males was due to retirement.

Table 3

Turnover by Gender during Fiscal Year 2006					
Gender	Average Headcount	Percentage of Workforce	Separations	Percentage of Separations	Turnover Rate
Females	77,661.00	53.6%	12,318	53.8%	15.9%
Males	67,273.25	46.4%	10,587	46.2%	15.7%
Totals	144,934.25	100.0%	22,905	100.0%	15.8%

Sources: Uniform Statewide Payroll System, Human Resources Information System, and Statewide Payroll/Personnel Reporting System.

Turnover by Age

The turnover rate in state agencies was highest in the under-30 age group (36.9 percent, see Table 4). Turnover for the 40-to-49 and 50-to-59 age groups is lower than the overall turnover rate for all full- and part-time classified employees. The turnover rate for employees age 60 and older was higher than the overall turnover rate for full- and part-time classified employees.

Table 4

Turnover by Age Group during Fiscal Year 2006					
Age Group	Average Headcount	Percentage of Workforce	Separations	Percentage of Separations	Turnover Rate
16 to 29	21,584.50	14.9%	7,958	34.7%	36.9%
30 to 39	34,095.00	23.5%	5,694	24.9%	16.7%
40 to 49	43,563.75	30.1%	4,111	17.9%	9.4%
50 to 59	36,465.25	25.2%	3,581	15.6%	9.8%
60 to 69	8,641.25	6.0%	1,440	6.3%	16.7%
70 or Older	554.25	0.4%	110	0.5%	19.8%
Age Unknown	30.25	0.0%	11	0.0%	36.6%
Totals	144,934.25	100.0%	22,905	100.0%	15.8%

Sources: Uniform Statewide Payroll System, Human Resources Information System, and Statewide Payroll/Personnel Reporting System.

The State's exit survey results indicate the top reason for leaving cited by employees under 25 was to return to school, followed by better pay/benefits. For workers 50 years and older, the top reason cited for leaving was due to retirement.

Turnover by Ethnicity

Turnover among ethnic groups, as reported by the ethnic information contained in the State's payroll system, is generally proportional to each ethnic group's representation within the workforce (see Table 5).

Table 5

Turnover by Ethnic Group during Fiscal Year 2006					
Ethnic Group	Average Headcount	Percentage of Population	Separations	Percentage of Separations	Turnover Rate
Black	30,085.00	20.8%	5,756	25.1%	19.1%
Hispanic	32,652.75	22.5%	4,647	20.3%	14.2%
White	79,142.50	54.6%	12,043	52.6%	15.2%
Other	3,054.00	2.1%	459	2.0%	15.0%
Totals	144,934.25	100.0%	22,905	100.0%	15.8%

Sources: Uniform Statewide Payroll System, Human Resources Information System, and Statewide Payroll/Personnel Reporting System.

In the exit surveys, the top reason for leaving cited by employees across all ethnic groups was for better pay/benefits. Poor working conditions/environment was the second most frequently cited reason for leaving by blacks and hispanics. For those of white ethnicity, the second most frequently cited reason was retirement.

Chapter 2-D

Turnover by Salary Schedule**Classified Salary Schedules**

Schedule A - Administrative support, maintenance, technical, and paraprofessional jobs.

Schedule B - Primarily professional and managerial positions.

Schedule C - Law enforcement positions.

Salary schedule A, which comprises 54.9 percent of the State's classified workforce, experienced the highest turnover (20.2 percent) within the State's three classified salary schedules.

The State's law enforcement schedule (salary schedule C) experienced the lowest turnover (4.2 percent). Table 6 provides details for all the State's salary groups.

Table 6

Turnover by Classified Salary Schedule during Fiscal Year 2006					
Salary Schedule	Average Headcount	Percentage of Workforce	Separations	Percentage of Separations	Turnover Rate
A	79,543.00	54.9%	16,058	70.1%	20.2%
B	61,002.75	42.1%	6,662	29.1%	10.9%
C	4,388.50	3.0%	185	0.8%	4.2%
Totals	144,934.25	100.00%	22,905	100.00%	15.8%

Sources: Uniform Statewide Payroll System, Human Resources Information System, and Statewide Payroll/Personnel Reporting System.

Turnover by General Appropriations Act Article

Articles in the State's General Appropriations Act

The General Appropriations Act for the State is categorized by types of services provided.

Article I - General Government.
 Article II - Health and Human Services.
 Article III - Education.
 Article IV - Judiciary.
 Article V - Public Safety and Criminal Justice.
 Article VI - Natural Resources.
 Article VII - Business and Economic Development.
 Article VIII - Regulatory.

Public Safety and Criminal Justice has the highest turnover rate among all General Appropriations Act articles (see Table 7). The second highest turnover rate among General Appropriations Act articles was the Judiciary. The Health and Human Services article also had a turnover rate higher than the state turnover rate for full- and part-time classified employees.

Table 7

Turnover by General Appropriations Act Article during Fiscal Year 2006					
Article	Average Headcount	Percentage of Workforce	Separations	Percentage of Separations	Turnover Rate
I - General Government	9,521.75	6.6%	1,081	4.7%	11.4%
II - Health and Human Services	46,662.75	32.2%	7,948	34.7%	17.0%
III - Education	1,946.00	1.3%	213	0.9%	10.9%
IV - Judiciary	665.50	0.5%	120	0.5%	18.0%
V - Public Safety and Criminal Justice	55,743.25	38.5%	10,564	46.1%	19.0%
VI - Natural Resources	8,129.50	5.6%	773	3.4%	9.5%
VII - Business and Economic Development	18,853.25	13.0%	1,837	8.0%	9.7%
VIII - Regulatory	3,412.25	2.4%	369	1.6%	10.8%
Totals	144,934.25	100.0%	22,905	100.0%	15.8%

Sources: Uniform Statewide Payroll System, Human Resources Information System, and Statewide Payroll/Personnel Reporting System.

Turnover by Agency

The Youth Commission experienced the highest agency turnover (35.6 percent), excluding agencies with fewer than 1,000 employees, during fiscal year 2006. Table 8 provides information on the turnover rates (excluding interagency transfers) for agencies with 1,000 or more employees. Appendix 3 provides information on turnover rates for all state agencies.

Table 8

Turnover by Agency during Fiscal Year 2006					
Agency	Average Headcount	Percentage of Workforce	Separations	Percentage of Separations	Turnover Rate
694 - Youth Commission	4,823.00	3.3%	1,716	7.5%	35.6%
539 - Department of Aging and Disability Services	15,209.00	10.5%	3,491	15.2%	23.0%
696 - Department of Criminal Justice	41,396.00	28.6%	7,997	34.9%	19.3%
530 - Department of Family and Protective Services	8,397.00	5.8%	1,525	6.7%	18.2%

Sources: Uniform Statewide Payroll System, Human Resources Information System, and Statewide Payroll/Personnel Reporting System.

Chapter 2-G

Turnover by Occupational Category/Job Classification Series

The Criminal Justice and Social Services occupational categories account for 60.5 percent of the State's turnover, excluding interagency transfers. These two occupational categories each had turnover rates greater than 20 percent. Table 9 on the next page provides information on turnover for the State's occupational categories.

Table 9

Turnover by Occupational Category during Fiscal Year 2006					
Occupational Category	Average Headcount	Percentage of Workforce	Separations	Percentage of Separations	Turnover Rate
Accounting, Auditing, and Finance	5,005.25	3.5%	418	1.8%	8.4%

Appendix 4 provides turnover information for all the State's classified regular full- and part-time employees by job classification series.

Chapter 2-H

Turnover by Equal Employment Opportunity Category

The Service-Maintenance equal employment opportunity (EEO) category had the highest turnover rate (29.1 percent). The Protective Service Workers EEO category (turnover rate was 22.9 percent) had the highest percentage of state agency separations for part and full-time classified employees, as indicated in Table 11.

Those in the Protective Service Workers and Service-Maintenance occupational categories accounted for 35.9 percent of the classified regular workforce; the turnover for these two occupational categories accounts for 55.4 percent of the full- and part-time classified employee turnover within state agencies. Appendix 5 provides a description of the EEO categories.

Table 11

Turnover by EEO Category during Fiscal Year 2006					
EEO Category	Average Headcount	Percentage of Workforce	Separations	Percentage of Separations	Turnover Rate
Administrative Support	15,598.25	10.8%	2,012	8.8%	12.9%
Elected Officials Staff	4.25	0.0%	0	0.0%	0.0%
Officials & Administrators	4160.25	2.9%	301	1.3%	7.2%

Chapter 2-I

Turnover by Length of State Service

Employees with fewer than five years of state service had the highest turnover rate (29.9 percent) compared to groups with five years or more of state service. Table 12 provides a summary of turnover by length of state service.

Table 12

Turnover by State Length of Service during Fiscal Year 2006					
State Length of Service	Average Headcount	Percentage of Workforce	Separations	Percentage of Separations	Turnover Rate
Less than 2 years	25,850.00	17.8%	10,071	44.0%	38.9%
02 to 04.99 Years	22,084.75	15.2%	4,248	18.5%	19.2%

Chapter 2-J

Turnover by Region/County

The West Texas region experienced the highest turnover (22.3 percent) among all regions of the state. This region employs 3.2 percent of the State's classified regular full- and part-time employees. The Capital region, which employs 25.5 percent of classified state employees, experienced a turnover rate of 11.2 percent. Table 13 provides turnover information for all the regions within the state.

Seventy-three counties experienced turnover rates greater than the overall statewide turnover rate of 15.8 percent. Appendix 6 provides information on turnover for each Texas county.

Table 13

Turnover by Region during Fiscal Year 2006					
Region	Average Headcount	Percentage of Workforce	Separations	Percentage of Separations	Turnover Rate
01 - Alamo	8,458	5.8%	1,399	6.1%	16.5%
02 - Capital	37,011	25.5%	4,163	18.2%	11.2%

Turnover at Health and Human Services Agencies

Employees within the State's health and human services agencies comprised 32 percent of the State's classified regular full- and part-time workforce during fiscal year 2006. These agencies had an average headcount of 46,045.50 classified regular full-time employees and 617.25 classified regular part-time employees. The fiscal year 2006 turnover rate for these classified regular full- and part-time employees (including interagency transfers) was 20.9 percent, compared to 22.1 percent in fiscal year 2005.

Of the 1,034 employees who completed the exit survey at health and human services agencies, the top three reasons cited for leaving were:

- Working conditions.
- Better pay and benefits.
- Issues with my supervisor/Issues with employees I supervise.

Table 14 provides information on turnover within health and human services agencies.

Table 14

Turnover Rates for Health and Human Services Agencies					
Agency	Fiscal Year 2006 Average Headcount	Percentage of Health and Human Services Workforce in Fiscal Year 2006	Fiscal Year 2005 Turnover	Fiscal Year 2006 Turnover	Percent Change
529 - Health and Human Services Commission	7,974.50	17.1%	19.1%	22.1%	15.8%
530 - Department of Family and Protective Services	8,397.00	18.0%	24.0%	20.7%	-13.9%

Managers	927.25	177	19.1%	958.50	100	10.4%	-45.4%

Sources: Uniform Statewide Payroll System, Human Resources Information System, and Statewide Payroll/Personnel Reporting System.

Turnover at the Department of Criminal Justice

The Department of Criminal Justice makes up slightly more than one-fourth (28.6 percent) of the State's workforce and accounts for 31.4 percent of total state agency separations (including interagency transfers).

Overall, the agency's turnover rate for full- and part-time employees for fiscal year 2006 was 19.7 percent, which was higher than the statewide turnover rate of 17.9 percent including interagency transfers. Table 17 shows the majority of separations were voluntary. The number of employees who voluntarily left the agency in fiscal year 2006 increased from fiscal year 2005.

Table 17

Separation Counts by Turnover Type within the Department of Criminal Justice			
Type of Turnover	Fiscal Year 2005	Fiscal Year 2006	Percent Change
Involuntary	2,041	2,318	13.6%
Retirements	981	626	-36.2%
Voluntary	4,967	5,228	5.3%
Totals	7,989	8,172	2.3%

Sources: Uniform Statewide Payroll System, Human Resources Information System, and Statewide Payroll/Personnel Reporting System.

Of the 551 employees who completed the exit survey, the top three reasons cited for leaving were:

- Better pay and benefits.
- Working conditions.
- Retirement.

The Correctional Officer turnover rate was 24 percent in fiscal year 2006.

Correctional Officers and Senior Correctional Officers make up 70.3 percent of the agency's workforce (29,108 employees) and 80.2 percent of the agency's total turnover.

General Appropriations Act (2006-2007 Biennium)

The outcome measure for fiscal years 2006 and 2007 for correctional officer turnover is listed as 18 percent.

Source: Page V-12, the General Appropriations Act (79th Legislature).

While the Senior Correctional Officer turnover rate was 10 percent, the Correctional Officer turnover rate was more than double at 24 percent, making it the job classification series with the third highest turnover rate within the agency (see Table 18). The combined turnover rate for Correctional Officers and Senior Correctional Officers was 22.5 percent.

Table 18

Top Ten Job Classification Series at the Department of Criminal Justice ^a with the Highest Turnover Rate Fiscal Year 2006			
Job Classification Series	Average Number of Employees	Number of Separations	Turnover Rates
Data Entry Operators	20.75	6	28.9%
Substance Abuse Counselors	80.25	20	24.9%
Correctional Officers	26,032.00	6,244	24.0%

State Agencies' Exit Survey Participation Has Decreased

During fiscal year 2006, 3,522 employees at state entities (excluding institutions of higher education) completed the state employee on-line exit survey. This represents 15.7 percent of the employees who were eligible to complete the survey. In fiscal year 2005, 4,053 employees completed the survey—15.1 percent more than completed the survey in fiscal year 2006. Table 19 provides a summary of the reasons employees cited for leaving state employment in fiscal years 2005 and 2006. Appendix 7 provides the overall results of the fiscal year 2006 exit surveys.

Exit Surveys

Texas Government Code, Section 651.007, requires state agencies (excluding institutions of higher education) to provide an opportunity to employees who voluntarily leave state employment to complete an exit survey. The survey provides employees with a mechanism that allows them to record their reasons for leaving state employment in their own words. Agencies receive reports summarizing employees' reasons for leaving each quarter.

Table 19

Reasons Cited in Exit Surveys for Leaving State Employment				
Reason for Leaving	Fiscal Year 2005		Fiscal Year 2006	
	Number of Respondents	Percentage of Exit Survey Response	Number of Respondents	Percentage of Exit Survey Response
Better Pay/Benefits	1,086	26.8%	819	23.3%
Poor working conditions/environment (for example, safety, work-related stress and/or workload issues)	390	9.6%	456	12.9%
Retirement	751	18.5%	412	11.7%

Totals	4,053	100.0%	3,522	100.0%

Source: State Auditor's Office - State of Texas Employee Exit Survey.

The legislation requiring the employee exit survey was enacted during fiscal year 2002. Since 2004, the number of exit survey identification codes issued by participating state agencies to exiting employees (which enables employees to take the survey) has declined. The State Auditor's Office considers a decision to leave made by an employee on his or her own accord as a voluntary separation. A voluntary separation is categorized in the State's payroll system using reason codes. For purposes of identifying voluntary separations to gather exit survey information, the reason codes used in the State's payroll system include: 060- a voluntary separation, 068 - a retirement, or 065 - a transfer to another state agency.

As the information in Table 20 shows, the number of identification codes provided by state agencies to exiting employees compared to the number of voluntary separations that occurred during the same time period has declined since 2004. Agencies should revisit their exit procedures to ensure they provide exit survey identification codes to qualified separating employees.

Table 20

Summary of Exit Survey Statistics Fiscal Years 2002 through 2006			
Fiscal Year	Voluntary Separations Reported through Statewide Payroll Systems	Identification Codes Generated	Percentage of Identification Codes Generated for Voluntary Separations ^a
2002	13,726	12,976	94.5%
2003	16,109	17,708	109.9%
2004	13,978	16,070	115.0%
2005	23,700	16,578	69.9%
2006	22,416	16,822	75.0%

^aThe percentage of identification codes generated for voluntary separations can be greater than 100 percent in some situations because some employees rescind their resignations after the agencies have generated these codes.

Source: State Auditor's Office - State of Texas Employee Exit Survey.

Appendix 8 provides a summary of the percentage of identification codes generated for voluntary separations by agency for fiscal year 2006. Appendix 9 provides a summary of reasons employees left each agency.

Appendices

Appendix 1

Objective, Scope, and Methodology

Objective

The objective of this report is to provide information on employee turnover, to evaluate and analyze trends in state employment, and to address the causes of turnover.

Scope

The scope of this report includes full- and part-time classified employees in state agencies during fiscal year 2006. This report does not include data from institutions of higher education. The On-Line Exit Survey is offered to all employees who voluntarily separate. Information pertaining to that tool may include employees outside the scope of this report.

Methodology

The state turnover rate is the percentage of full- and part-time classified state employees, excluding employees at institutions of higher education, who voluntarily and involuntarily separate from the State, unless otherwise noted.

Interagency transfers are excluded from the calculation of the State's overall turnover rate because employees who transfer to other state agencies and institutions of higher education are not considered a loss to the State as a whole.

This analysis was prepared from quarterly and year-end summary information received from the Comptroller of Public Accounts' Human Resource Information System (HRIS), the Uniform Statewide Payroll/Personnel System (USPS), and the Standardized Payroll/Personnel Reporting System (SPRS).

The following formula was used to determine the State's turnover rate:

$$\left(\frac{\text{Number of separations during the fiscal year}}{\text{Average number of classified employees during the fiscal year}^3} \right) \times 100$$

³ The "average number of employees" was calculated by totaling the number of classified employees for each quarter of fiscal year 2006 and then dividing this total by the number of quarters.

The Employee Exit Survey is an online system to provide employees who separate voluntarily an opportunity to provide feedback about reasons for leaving state employment. In fiscal year 2006, a total of 3,522 employees completed the survey. This number includes all employee types (that is, classified full-time, classified part-time, non-classified full-time, and part-time).

Project Information

Fieldwork was conducted from October 2006 through December 2006. This project was a review; therefore, the information in this report was not subjected to all the test and confirmations that would be performed in an audit. However, the information in this report was subject to certain quality control procedures to ensure accuracy and compliance with generally accepted compensation practices.

The following members of the State Auditor's Office staff performed the field work for this report:

- Stacey Robbins McClure, PHR (Project Manager)
- Sharon Schneider, PHR
- Debra Serrins (Information Technology System)
- Worth Ferguson, CPA (Quality Control Reviewer)
- J. Scott Killingsworth, CIA, CGFM (Quality Control Reviewer)
- Susan Riley, CPA (Assistant State Auditor)

Reasons State Employees Separated During Fiscal Years 2002-2006

Table 21 provides a summary of the all types of employee separations for fiscal years 2002 through 2006.

^a Turnover rates in this table include interagency transfers because these separations are considered a loss for the agency.

^b Because their employees are paid from multiple funding sources, these agencies have average headcounts that differ slightly from other state agencies.

Sources: Uniform Statewide Payroll System, Human Resources Information System, Statewide Payroll/Personnel Reporting System.

Turnover by Job Classification Series

Table 23 provides a summary of turnover by job classification series.

Definitions for Equal Employment Opportunities Categories

The Equal Employment Opportunities (EEO) Act requires state and local governments to file an EEO-4 report on an annual basis. Within the EEO reporting requirements, employees must be counted by sex and race/ethnic category for each of the eight occupational categories listed below.

Officials and Administrators: Occupations in which employees set broad policies; exercise overall responsibility for execution of these policies; or direct individual departments or special phases of the agency's operations; or provide specialized consultation on a regional, district, or area basis. Includes: department heads, bureau chiefs, division chiefs, directors, deputy directors, controllers, wardens, superintendents, sheriffs, police and fire chiefs and inspectors, examiners (bank, hearing, motor vehicle, warehouse), inspectors (construction, building, safety, rent-and-housing, fire, A.B.C. Board, license, dairy, livestock, transportation), assessors, tax appraisers and investigators, coroners, farm managers, and kindred workers.

Professionals: Occupations that require specialized and theoretical knowledge that is usually acquired through college training or through work experience and other training that provides comparable knowledge. Includes: personnel and labor relations workers, social workers, doctors, psychologists, registered nurses, economists, dietitians, lawyers, systems analysts, accountants, engineers, employment and vocational rehabilitation counselors, teachers or instructors, police and fire captains and lieutenants, librarians, management analysts, airplane pilots and navigators, surveyors and mapping scientists, and kindred workers.

Technicians: Occupations that require a combination of basic scientific or technical knowledge and manual skill that can be obtained through specialized post-secondary school education or through equivalent on-the-job training. Includes: computer programmers, drafters, survey and mapping technicians, licensed practical nurses, photographers, radio operators, technical illustrators, highway technicians, technicians (medical, dental, electronic, physical sciences), police and fire sergeants, inspectors (production or processing inspectors, testers, and weighers), and kindred workers.

Administrative Support (Including Clerical and Sales): Occupations in which workers are responsible for internal and external communication, recording and retrieval of data, and/or information and other paperwork required in an office. Includes: bookkeepers, messengers, clerk-typists, stenographers, court transcribers, hearing reporters, statistical clerks, dispatchers, license distributors, payroll clerks, office machine and computer operators, telephone operators, legal assistants, sales workers, cashiers, toll collectors, and kindred workers.

Skilled Craft Workers: Occupations in which workers perform jobs that require special manual skill and a thorough and comprehensive knowledge of the processes involved in the work that is acquired through on-the-job training and experience or through apprenticeship or other formal training programs. Includes: mechanics and repairers, electricians, heavy equipment operators, stationary engineers, skilled machining occupations, carpenters, compositors and typesetters, power plant operators, water and sewage treatment plant operators, and kindred workers.

Service/Maintenance Workers: Occupations in which workers perform duties that result in or contribute to the comfort, convenience, hygiene, or safety of the general public or contribute to the upkeep and care of buildings, facilities, or grounds of public property. Workers in this group may operate machinery. Includes: chauffeurs, laundry and dry cleaning operatives, truck drivers, bus drivers, garage laborers, custodial employees, gardeners and groundskeepers, refuse collectors, construction laborers, park rangers (maintenance), farm workers (except managers), craft apprentices/trainees/helpers, and kindred workers.

Para-Professionals: Occupations in which workers perform some of the duties of a professional or technician in a supportive role, which usually require less formal training and/or experience normally required for professional or technical status. Such positions may fall within an identified pattern of staff development and promotion under a "New Careers" concept. Includes: research assistants, medical aids, child support workers, policy auxiliary welfare service aids, recreation assistants, homemakers aides, home health aides, library assistants and clerks, ambulance drivers and attendants, and kindred workers.

Protective Service Workers: Occupations in which workers are entrusted with public safety, security, and protection from destructive forces. Includes: police patrol officers, fire fighters, guards, deputy sheriffs, bailiffs, correctional officers, detectives, marshals, harbor patrol officers, game and fish wardens, park rangers (except maintenance), and kindred workers.

Fiscal Year 2006 Overall Exit Survey Results

Figures 6 through 12 show the aggregate results from the State of Texas Employee Exit Survey for fiscal year 2006. The surveys were completed between September 1, 2005, and August 31, 2006.

Figure 6

Source: State of Texas Employee Exit Survey System.

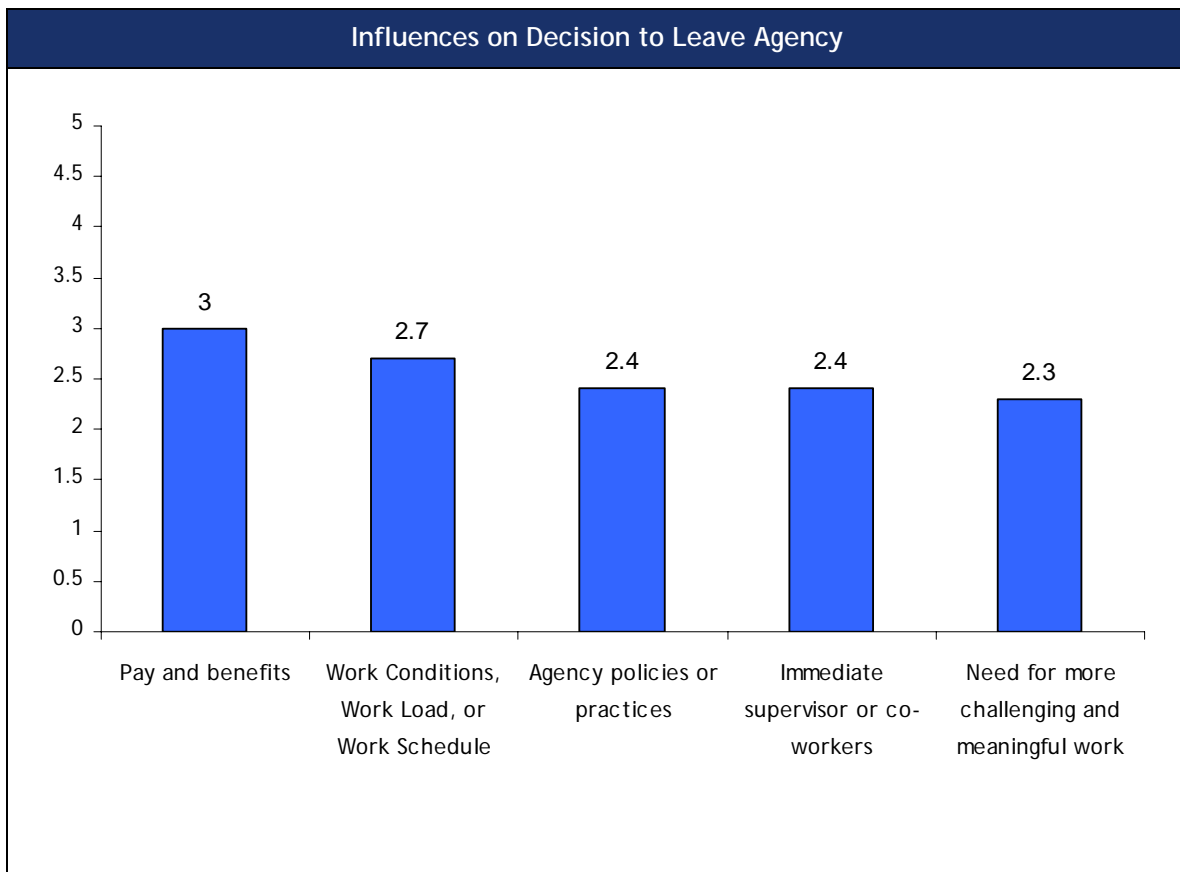

Figure 7

Source: State of Texas Employee Exit Survey System.

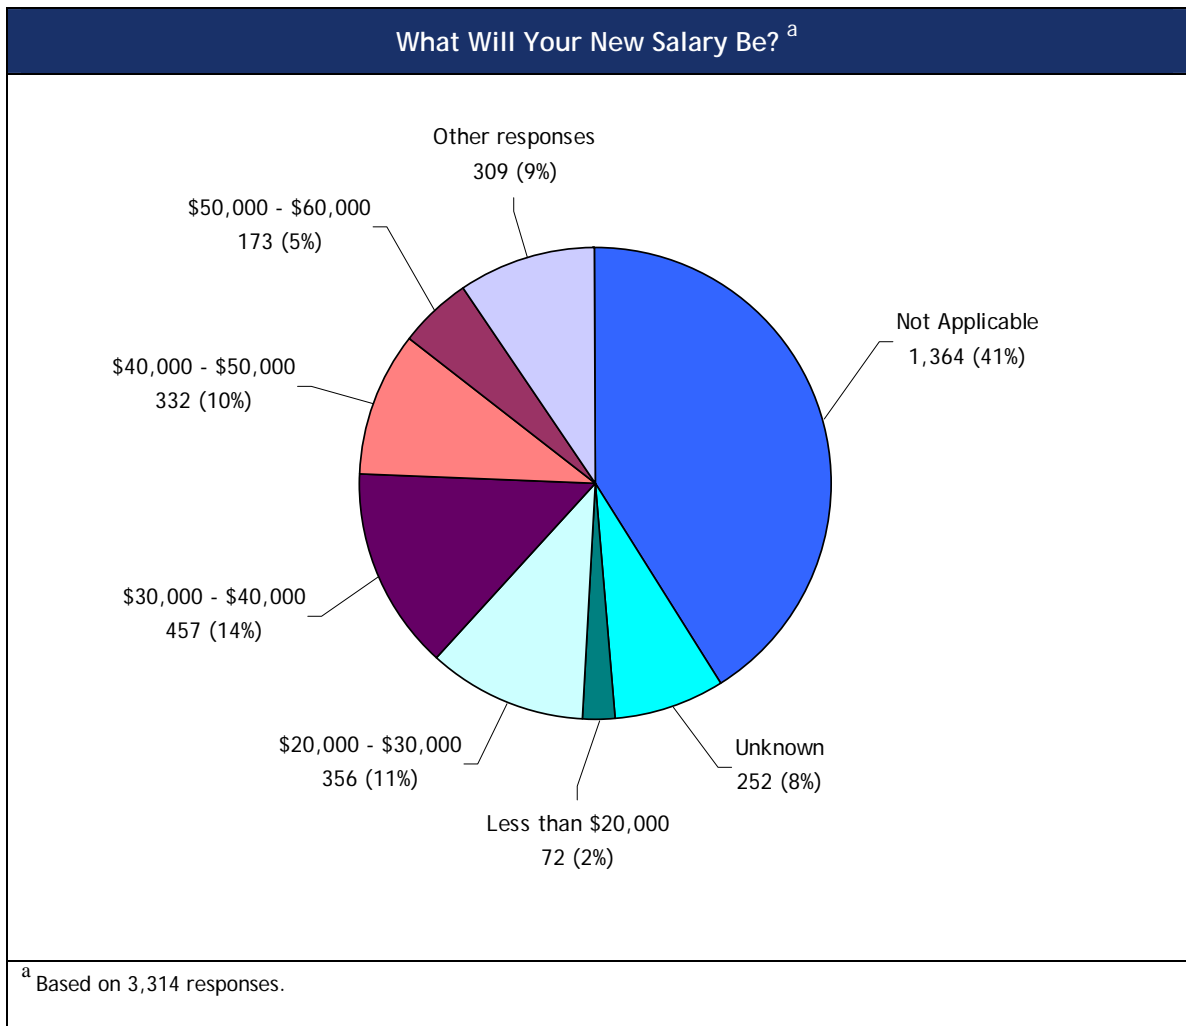

Figure 8 shows the extent that specific items influenced the employee's decision to leave employment with his or her agency. The averages are computed on a 5-point scale: 1-Very Little Extent, 2-Little Extent, 3-Some Extent, 4-Great Extent, 5-Very Great Extent. The results are based on 3,364 responses.
